

K100PLZRGB7A LED Signal Light

Features

- All-round LED display
- Mechanical screw-in thread M36 × 2.0
- Protection class IP66
- Up to seven colors can be displayed in accordance with the logic table (COL 1, COL 2, COL 3)
- Can be configured using Pro Editor, can display up to 14 colors, various lighting animations, configurable I/O-block compatibility
- Cable, 2 m, 5-pin

Wiring diagram

Functional principle

These indicator lights have RGB LEDs. Four input signals can be used to control one of seven predefined colors when using the standard settings, and to activate the optional beeper. The logic table shows which input needs to be connected. With the Pro Editor software, these lights can be assigned user-defined colors in the advanced settings and the functionality of the beeper can be adjusted. The major advantage of these LEDs is the color fidelity and luminance. The wiring diagram shows a PNP pin assignment.

Technical data

Type	K100PLZRGB7A
ID	3813077
Signal and display data	
Purpose	LED indicator light
Light type	RGB
Aperture angle degree	360 °
LED service life (L70)	42000 h
Dimmable	No
Features of color 1	Red, 36 lm
Features of color 2	Green, 73 lm
Features of color 3	Blue, 14 lm
Features of color 4	Yellow, 91 lm
Features of color 5	Magenta, 47 lm
Features of color 6	Turquoise, 83 lm
Features of color 7	White, 112 lm
Acoustic signal	Key adjustable, 101 dB
Electrical data	
Operating voltage U _B	100...240 VAC
AC rated operational current	≤ 100 mA
Mechanical data	
Cascadable	No
Design	Dome
Dimensions	Ø 118.5 x 160.3 mm
Housing material	Plastic, PC
Electrical connection	Cable
with motion switch	no
Ambient temperature	-40...+60 °C

Technical data

Storage temperature	-40...+70 °C
Relative humidity	90 %
Protection class	IP66
Tests/approvals	
Approvals	CE, UL listed

Accessories
